

**Specifications of seasonal space heating energy efficiency  
from the Commission Regulation (EU) 2015/1188**
**Model designations:**

Details	Symbol	Value	Unit
<b>Heat output</b>			
Nominal heat output	$P_{nom}$	<input type="text"/> . <input type="text"/>	kW
Minimum heat output (guide value)	$P_{min}$	<input type="text"/> . <input type="text"/>	kW
Maximum continuous heat output	$P_{max,c}$	<input type="text"/> . <input type="text"/>	kW
<b>Auxiliary power consumption</b>			
At nominal heat output	$e_{l,max}$	<input type="text"/> . <input type="text"/> <input type="text"/> <input type="text"/>	kW
At minimum heat output	$e_{l,min}$	<input type="text"/> . <input type="text"/> <input type="text"/> <input type="text"/>	kW
In standby mode	$e_{l,SB}$	<input type="text"/> . <input type="text"/> <input type="text"/> <input type="text"/>	kW

**Type of heat output / room temperature control (please select one option)**

Room temperature control with mechanical thermostat	<input type="checkbox"/> yes	<input type="checkbox"/> no
with electronic room temperature control	<input type="checkbox"/> yes	<input type="checkbox"/> no
With electronic room temperature control and time control	<input type="checkbox"/> yes	<input type="checkbox"/> no
electronic room temperature control and weekday control	<input type="checkbox"/> yes	<input type="checkbox"/> no

**Other control options (multiple answers possible)**

Room temperature control with presence detection	<input type="checkbox"/> yes	<input type="checkbox"/> no
Room temperature control with open window detection	<input type="checkbox"/> yes	<input type="checkbox"/> no
With remote control option	<input type="checkbox"/> yes	<input type="checkbox"/> no
With adaptive control of start of heating	<input type="checkbox"/> yes	<input type="checkbox"/> no
